PROJECT INFORMATION

Purpose & Need for the Project:

Project Need:

Currently SR 108 along Monoway, like many rural highways throughout the state is used as a shared facility for non-motorized vehicles and pedestrians. The proposed project will add widths to sections of SR 108 along Monoway between Hess and Standard Road Interchanges, that currently have none. This will facilitate and improve the safe movement of bicycles and pedestrians using the facility.

Project Purpose:

The proposed project will close the gap in various locations, by providing continuous bike/pedestrian facilities along existing Highway 108, in Tuolumne County near the City of Sonora. The proposed project limits are between Hess Avenue and Standard Road PM 3.00-4.00.
